Dear Bob:

On June 12, 2002, you accompanied me during an aerial survey for gypsy moth defoliation at Blossom Point Proving Grounds. As you already know, no defoliation was detected at, or in the vicinity of, this site.

On July 1, 2002, Brad Onken conducted an aerial survey at the Adelphia Laboratory Center. No defoliation was detected at, or in the vicinity of, this site either.

However, if you anticipate requesting either financial or technical assistance for gypsy moth control in 2003, please contact Brad Onken or me by letter or telephone (304) 285-1541 before August 22, 2002.

Please contact me at the above number if you have any questions regarding this aerial survey letter.

Sincerely,

RODNEY L. WHITEMAN
